Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

i) The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1 and 14, and thus dependent claims 2-3, 6-13 and 15-22, are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The phrase “essentially dry solid feed” is not supported by the original specification. As can best be found by the examiner, the specification, at page 4, line 24, states that the feed may be “solid or liquid”. There is no support, either explicit or implicit, for an “essentially dry solid feed.” While not claimed, *per se*, various feedstuff components disclosed as encompassed by the invention, at page 5 of the specification, are not “essentially dry”, including “steep liquor” and “liquid whey”.

ii) The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 13 and 15-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 15-22 are directed to a “dry solid feed according to claim 14”, while depending from claim 14, which is directed to an “essentially dry solid feed”. Thus, the invention of claims 15-22 is not commensurate with the claim from which they depend.

Claims 13 and 22 state that the feedstuff may be “high moisture”, which appears to conflict with the language of the independent claims 1 and 14, directed to an “essentially dry solid” feed product.

Art Unit: 1761

Prior Art Rejections

* It is noted that, due to the unsupported amendment to the claims, regarding “essentially dry solid feed”, the previous art rejections have been circumvented and thus withdrawn. Applicant is advised, however, that amendment to the claims to remove the rejected language *after final*, would necessitate new issues of consideration and/or search, and thus such an amendment would not be entered after final. This may include the amendment of the claims to simply a “solid feed.” It is noted that an amendment deleting the rejected language may require the institution of the previous art rejections of record, and/or a new rejection under prior art, as would be applicable to the claims at that time. As new grounds of rejection which were not part of the final Office action would not be proper upon appeal, an amendment prompting such would not be entered.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
